WILLIAM A. BRADLEY,

Postmaster.

PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington, under the sacction of the Washington National Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of alding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patrictic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the

each, will yield an annual net profit of from fifty to sixty-thousand dollars.

The postmasters, and secretaries of all organized bodies throughout the Union, are respectfully requested to act as agents in obtaining subscriptions, thus aiding the great object of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its succees by publishing this prospectus.

All moneys will be remited, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlessey, Washington.

OFFICERS.—Millard Fillmore, ex-afficio President; Arch. Henderson, First Vice President; Walter Lanox, (Mayor of Washington.) Second Vice President; Thos. Carbery, Third Vice President J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Ben. Ogle Tayloe, Elisha Whittlessey, Termy.—The Monument will be printed on a double-

The Monument will be printed on a double-royal sheet—the paper and type being of the best quality— and in quarto form, containing sixteen large pages, that it, may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given. number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the MONUMENT

Societies and clubs will be furnished with the MONUMENT on the following terms: 3 copies for \$5; 5 copies, \$8; 10 copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Agent, without delay. The first number will be published early

without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

WASHINGTON, April 23, 1851.

ODFREY PATTISON & CO., NEW YORK, take leave to inform their friends and the public, that they have taken up the Importing Business on their own account. For the future they will confine themselves strictly to the Commission Business, for the purchase of dry goods, in Glasgow, Scotland.

From their long experience in the trade, they feel condent that they can promote the interest of those engaged in the importation of dry goods, and they respectfully solicit orders, which shall have their best attention.

The name of the firm in Glasgow is changed to GODFREY PATTISON & CO.

PATTISON & Co.

The New York firm being dissolved, they will be pleased to receive orders through their agent, James Pattison, No. 31 Pine street, New York.

GODFREY PATTISON & Co., Commission Merchant

gow, Scotland.

REPERENCES:
Messrs. Dennison, Wood & Co., New York.
Messrs. W. C. Pickeregill & Co.,
do.
Messrs. Merritt, Ely & Co.,
Joseph Walker, esq.,
do.

The subscribers being alone entrusted with samples of cloth and patterns of these goods for the United States market, invite the attention of the trade.

GODFREY PATTISON & Co., Glasgow mar 24—

STRAW GOODS

BTRAW GOUDS.

DOKER, BROS. & JONES, 82 Market street, Philadelphia, invite the attention of the trade to their splendid stock of Fancy and Staple BONNETS and HATS, of all kinds, purchased for cash in Europe by one of our firm and also an assortment of city and eastern made Boots and Shoes. All of which they offer at very low rates.

THE BEST AND MOST VALUABLE AGRICULTURAL IMPLEMENTS AND MACHINERY, exhibited at the State Fair in 1850, will be seen by the award of Premiums below:

Awarded to E. Whitman, jr., No. 55 Light street, Baltimore, by the Maryland State Agricultural Society, at their 3d Annual Fair, held in Baltimore 23d, 24th and 25th of October, 1850.

ctober, 1850.

No exhibitor of Agricultural Implements at the above
named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements
and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Medal) was awarded to Ezra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought Iron Raliway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1881.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines, 500 Cultivators, Reaping Machines, Wheat Drills, Corn and Cob Crushers, Burr Stone Mills, Cider Mills, Hay and Cotton Presses, logether with every article which a farmer op planter could whis in the prosecution of his pursuits; all of which will be sold on reasonable terms, at wholesale or scale.

FRESH SPRING GOODS FOR 1861.

CAMPER, BERKELEY, & BRUFF, No. 245 Baltimore street, have received an entirely new and choice ascortment of English, French, German, and American Dry Goods, suitable for the spring trade, embracing all the various styles pertaining to their line, and to which they invite the attention of their customers and merchants generally visiting this market.

These goods have been selected with great care and attention, and will be cold on as favorable terms as at any similar establishment in the country. We usame, in part, DRESS GOODS—embracing a choice variety, or of the choice of the country. Austin's Magic Freezer,

"hrough in six minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented Sep-

Through an six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does it swork better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I
used one of Austin's Patent Ice Cream Freezers of the
largest size, (10 gallons,) making from 10 to 50 gallons
per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer
now in use, as I have had with it no difficulty in making
ten gallons of superior quality Ice Cream from five of
plain Cream, in thirty minutes from the time I commenced working it.

Baltimore, April 6, 1851."

Manufactured and for sale by the patentee.

A. H. AUSTIN,
No. 61 N. Eutaw street, near Saratoga.

Also, by CORTLAN & CO., No. 203 Baltimore street.

MERICAN HOUNE, Hanover street, Boston.

AMERICAN HOUSE. Hanover street, Boston. THE Undersigned having entirely rebuilt and enlarged the above extensive establishment, containing in all about three hundred and fifty rooms; would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

reception and a commodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is d-emed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spaced to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home.

DELAWARE COLLEGE. THE Faculty of Instruction of this Institution its present organization, comments of the manned Professorabiles, to wit:

A Professorabile of Mental and Moral Science, A Professorabile of the Greek and Latin Langua A Professorabile of Mathematics and Natural

phy,
A Professorship of Rhetoric and Belles Lettres,
A Professorship of Chemistry and Natural History,
A Professorship of Civil Engineering,
A Professorship of Modern Languages and Drawing.
The Collegiate year is divided into two sessions or tes
of twenty-one weeks each. The first session commen
on the fourth Wednesday of Cotober; and the second
the fourth Wednesday of April. Each is followed by
vacation of five weeks.

COURSE OF INSTRUCTION. COURSE OF INSTRUCTION.

FERSHMAN CLASS.—I. Livy, begun; Xenophon's Ansbasis; Algebra, begun; History, begun;
H. Livy, finished; Homer's Odyssey, begun; Algebra, finished; Geometry, begun; History, continued.
HI. Horace, begun; Homer's Odyssey, finished; Geometry, five books; History, finished.
JUNION CLASS.—I. Tacitus, begun; The Prometheus of Eschylus and Electra of Sophocles; Analytical Geometry, finished; Calculus; Natural Theology; Evidences of Christianity.

Eschylus and Electra of Sophocles; Analytical Geometry, finished; Calculus; Natural Theology; Evidences of Christianity.

II. Logic; Mental Philosophy; The Alcestus of Euripides; Tacitus, finished; Natural Philosophy; Mechanics, begun.

III. Moral Philosophy; Plato's Gorgias; The Captive of Plautus; Mechanics, Hydrostatics, Pusumatics, and Meteorology.

Sophomore Class.—I. Horace, finished; Xenophon's Memorabilia; Geometry, finished; Rhetoric, begun.

II. Cleero de Amicitia and de Senectute; Herodotus, begun; Plane Trigonometry; Spherical Trigonometry; Rhetoric, continued.

III. Cleero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished.

SENOR Class.—I. Political Philosophy; The Andria of Terrence; The Clouds of Aristophanes; Acoustics, Optics, Electricity, Magnetism.

II. Elements of Criticism; Butler's Analogy; Cicero's Tusculan Questions; Demosthenes de Corona; Voltaic Electricity or Galvanism; Electro-Magnetism, Magneto-Electricity, Electro-Dynamics; Astronomy, begun.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

eology.
PHILOSOPHICAL APPARATUS. PHILOSOPHIUAL APPARATUS.
The College is provided with a Philosophical Apparatus that farnishes ample means of experimental illustrator in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended partly in this country and partly in London and Paris, it the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the clos of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainment are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION. RELIGIOUS INSTRUCTION.

refunded.

Board is furnished with the families of the Professors at two dollars per week.

Washing, at the usual rates.
All dues are payable in advance. The tuition is remitted, on application, to all students designed for the Ministry.

The tuition fee for Modern Languages will be eight dollars per session, to be paid to the Instructor in advance. vance.

For students who do not design to prosecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticipated.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriation, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. An English Department—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Ractoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

hristianity.
3d. A MERCANTILE DEPARTMENT—In which will be im arted an acquaintance with all that is necessary to qual y youth for the immediate duties of the counting-house

1. Penimansip—By an original and popular system or this art, which invariably produces a bold, finished hand, peculiarly adapted to the purposes of the accountant and business man.

2. Arathmetic—Comprising numerous abbreviated me-thods of computing Interest, Discount, Equation of Pay-ments, &c., and other mercantile calculations founded on per centage; together with all such operations as are re-quisite for a thorough knowledge of the business of the counting-room.

quisite for a thorough knowledge of the Counting room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. AN ACMOUNCEAL DEPARTMENT—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by averging all lectures.

experimental lectures.

5th. A Civil Engineer Department—In which are taught Arithmetic, (mental and written,) Algebra, (men-tal and written,) Geometry, Trigonometry, Surveying, with the use of instruments in the field, Practical Engi-neering, Architecture, Perspective, Draughting, and To-

neering, Architecture, Perspective, Draughting, and Topography.

6th. A Teacher's Department.—The course of study
will consist of a judicious selection of subjects from the
other departments, including all the branches pursued in
our common schools. Practical Lectures will also be given
on School Tesching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction
relative to the best and most popular methods of teaching,
but they will also have opportunities of exemplifying
them, by hearing recitations in the lower departments of
the Institution.

7th. A Department of Modern Languages—In which 7th. A DEPARTMENT OF MODERN LANGUAGES—In which

Tth. A DEPARTMENT Of MODERN LANGUAGE—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to pronounce with tolerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal

tures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for prieate study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Reculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c.,

the College as can be probladly expert by academics.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dollar per session for incidental expenses, and a fee of eight dollars for Modern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

Rev. MATTHEW MEIGS, A. M.,

Rev. MATTHEW MEIGS, A. M., President of Delaware College. mar 24

WILLIAMOTON BOARDING SCHOOL
WORLDOYS.—This institution is situated in one of the besibhiest parts of the city of Wilmington, soliticely beyond the setted portions of the town. This uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very lew cases of serious indisposition have occurred among the pupils, and not a single death either here, or from disease contracted while here.

The course of instruction includes, besides the ordinary English branches. Natural Philosophy, Chemistry, Physiology, History, Rhestoric, the various branches of Mathematics, and the Latin, Greek, and French Languagee. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable supparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

The TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMILTON.—Data Siz: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have effects which I have end the salutary effects which I have effects which I have repeated on the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsis, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRIFFITH, MORE HOME EVIDENCE.

VALUABLE LAW BOOKS. WE invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports.

English Common Law Reports,

Since volume 30 of this series, the English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, twe English in one American volume.
Price—For the first 43 vols., \$3.50 per vol.
For the succeeding, 250 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng-lish Common Law Reports.

lish Common Law Reports.

By Hon. Grore Sharswood and George W. Biddle, Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, ac., ac., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having the Reports; and of great convenient access to, but not owning the series.

New English Exchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. Clark Harr and H. B. Wallace, Esqrs, at \$2.50 per vol., bound.

Including McClelland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

Gordon, vol. 1, published and the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

CAMBRIDGE, January 25, 1840.

Messrs. T. & J. W. Johnson:
Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Messrs. T. & J. W. Johnson.

Law Library.

Fourth Series-Forty Volumes. Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.
The cheapest Law Periodical in the United States.
It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landiord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best cridence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

Leading Cases in Law and Equity. In Three Series-With American Notes

In Three Series—With American Notes.

1. White and Tuder's Leading Cases in Equity, 1 vol. 8vo. \$4 50; with copious and elaborate American Notes, by Messrs. Hare & Wallace.

2. Smith's Leading Cases, 2 vols.—\$10.

Thir-l American Edition—with Notes and References to late Es glish and American Decisious, J. I. Clark Hare and H. B. 'fallace, Esqrs.

3. A merican Leading Cases, 2 vols.

Containing voluminous and learned notes to the Leading Cases in Mercantile Law decided by the American Courts. Edited by John Innis Clark Hare, Esq., and Horace Binney Wallace, Esq.—\$9.

The English Ecclesiastical Reports.

The English Ecclesiastical Reports.

Secan Volumes—\$24 50.

Purnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed.

Three Volumes—§9.

Three Volumes—§9.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of 947 screes of land, in from two and a half to four miles of Reputsville, the county town, four-teen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Ratirood, which will be completed to Bremtaville this year. This land is well adapted to the growth of wheat, corn, rye, cats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, phister, guano, &c. It is besvily timbered, and finely watered, having hasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$2 to \$5 per acre. I will only require one-fourth of the purphase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Bresutville, suitable for a carriage-maker, wheelvright, or blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1000 is now my price for this property—on the same terms as the land. It is within a mile and three-quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turn-pike, just above Buckland, on which are a good dwellinghouse, a large wheelwright shop, kitchen, stable, dairy, and smoke-house. It would make a good tavern stand, and the shop a good stable. For this property I will take \$600—on like terms.

Fourthly. A lease lot in Haymarket, with a pretty good hou REAL ESTATE IN VIRGINIA FOR SALE.

BALTIMORE AND WASHINGTON RAILROAD.

On and after WEDNESDAY next, 9th instant, the station on Pennsylvania avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sanday when but, two taying run, viz. at 6 a.

at 5 p. m., as usual, at 5 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 5 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

1st. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless complied with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconvenience.

FURNISHING MAIL LOCKS & KEYS.

POST OFFICE DEPARTMENT, March 14, 1851.

I being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being.

sion for examination and report. Copin this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the coutract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz; durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keysadapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall doesn such requirement essential to the interests of the service. In case of the failure of the contract anew with any other party or parties as he may see fit, for furnishing si

besides a resort to the penal remedy hereinafter mentioned, to annul said confract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his ability to fulfil the contract.

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW.

BY PEREMAN HUNT, EDITOR AND PROPRIETOR.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1859, and each volume now contains more than seven hundred large octavo pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and shalf per volume.

The following are a few of the meny commentatory leters received by the editor of the Merchants' Magasine from distinguished statemen:

Letter from the Hon. Henry Clay.

Assiland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magasine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to you friends at the end of it. When we feet under obligations to those who have contributed to our information and amusement, we are naturally desirous to Doseses all the knowledge of them, of their spearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them, under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quits familiar with the Magasine and Review, and have no heelatation in expressing my humble opinion that it is eminantly entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the stateman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronised.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant,

Freeman Hunt, esc.

Ectract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magasine) with a good deal of attention, and have no heelation in saying that I think it one of the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be fo

I am, with great respect, your humble servant,

* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they premar 24—tf

COLD SPRING WATER CURE

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated shout three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of onnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Mesers. Hodges & Bryants; and the scenery in all directions is unsarpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and cesseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and clegant style, at considerable extra expense, and is sufficiently capacious to accommodate sevently five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healtiful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Fractice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physicism, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Nary M. Taylor, a lady of high medical attainments, who has standed two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

any time avail themselves of her invaluable as and council.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwearied pains will be taken to have every thing appertaining
to the establishment arranged on a plan, and conducted
in a way, to ensure the comfort, and promote the health
and happiness of all who may wish to avail themselves of
its benefits. Baths of all descriptions, adapted to the curof the various forms of disease, and constructed on a scale
not inferior to those of any other establishment in this
country.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient heyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Oure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation. Philadelphia Type and Stereotype Foundry.

THE subscriber would call the attention of Printers to the greatly reduced prices of the present list. They now offer to the greatly reduced prices of the present list. They now offer 30 cts. | Minion 48 cts. | Small Pica 32 | Nonparell 58 | Nonpar
